

Version of “IT’S A FACT” :30 Radio for Surgeon General

ANNC: Did you know the nicotine in e-cigarettes can harm brain development?

It’s a fact. Brain development continues through the mid-20s, and using nicotine during adolescence can impact attention, learning, and memory.

Did you know the nicotine in e-cigarettes can prime the brain for addiction – especially while it is still growing?

It’s a fact.

SG: This is U.S. Surgeon General Jerome Adams. For more facts about the risks of e-cigarettes, and how to protect our youth, visit e-cigarettes.surgeongeneral.gov
